

September 14, 2021

Dear Owner / Guest,

The property lost power and internet at 10:30 on Monday night (as did most of the rest of the island ). We are told we should receive restored services sometime today. There was minimal damage to the common areas and offices and overall Casa fared very well. Owners are responsible for inspecting their individual units, just as they would their own home.

Thank you,

The Management and Staff of Casa del Mar Beachfront Suites
